Staying updated is the key to success in any field especially in the field of education. Our teachers including our Principal constantly strive to stay updated by attending workshops and various training programmes. Continuing in the same vein this year also many Seminars and training programmes were conducted for teachers and students with a dual focus to improve and implement innovative ideas in teaching learning practices as well as to take the students beyond their current level of learning and to sharpen their skills according to New Pedagogical Needs. Many training programmes were offered by CBSE on digital platforms, where teachers enrolled their presence to meet the needs of NEP.

We have a strong support of our parents which we cherish every year. We had many virtual meetings with the parents to discuss about teaching learning process of their wards. Also days were set apart for parent teacher interaction in which parents were called class wise to meet the teachers.

In conclusion, I would like to quote, “A setting sun always whispers a promise for tomorrow, and a new dawning year will definitely bring lots of cheer and happiness in our lives”. With this optimistic note, we pray to Almighty to bless all with good health and wisdom, to help sail through and come out with flying colours in all the Endeavour’s.

Thank you !
